

I saved 60 minutes during the process.

Get the information now and profit.

I ❤️ GATE

Chemion GATE

The automated lorry dispatch at the CHEMPARK

Simply brilliant. I saved one hour.

It is truly a pleasure to be automatically re-directed.

Thomas Leutner, lorry operator

GATE offers unbeatable advantages for the safety and handling

For your drivers:

- ✓ Automatic step-by-step re-routeing and waiting time management
- ✓ Accelerated process through simple identification
- ✓ Access to the self-service terminal from the driver's cabin
- ✓ Printout of the accompanying & exit documents directly at the self-service terminal
- ✓ Dangerous goods control with the aid of electronic checklists

And for you:

- ✓ Reduced processing times
- ✓ One hour time saving for another disposition of driver and truck
- ✓ Increased safety through enhanced process transparency
- ✓ Higher employee satisfaction due to fluid collection process

You save approx. 60 minutes when using GATE – for every pick-up!

Contact us for more information.

It's so simple to benefit from GATE – and just with a few steps:

1. Equip your tractor units, trailers and containers with an RFID tag.
2. Register your vehicles with us.
3. Your drivers are registered and receive a flowcard, which they use to log on at the self-service terminals. A fingerprint confirms the identity of the driver.
4. As an option, your transports can be pre-registered, making the processing even faster.
